

MAKE EARTH A BETTER PLACE FOR THE AETA

The eruption of Mount Pinatubo in 1991 altered the environment and the topography surrounding the mountain. The destruction eliminated the topsoil, wild animals, villages, crops, plantations, livestock, and fisheries, which have not rebounded. Most of the Aeta families have problems they are not able to solve, prevent, or change. The best way to solve their problems is through donations and volunteering.

Aeta Tribe Foundation believes that caring for the forest and the Earth is vital to the Aeta's survival and will help to end thirst and hunger, whether through reforestation or sustainable farming that reduces the ill effects on the environment.

Every dollar donated will be spent to support an Aeta village in need of water systems, water containers, animals, or agricultural tools. We are an IRS-approved charity, and your donations can be written off on your US tax returns.

Please give a gift that truly makes a difference and helps to lift families out of hunger and poverty.

Bronze Donor: \$25 plus

Aeta Tribe Foundation is a 501 (c)(3) non-profit organization, the Federal Tax Identification is 47-3714375.
